LOCAL NOTICE TO MARINERS

District: 5

Week: 14/16

LOCAL NOTICE TO MARINERS

Coastal Waters from Shrewsbury River, New Jersey to Little River, South Carolina

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at <http://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=5>. If you have questions about the LNM, please contact:

COMMANDER, FIFTH COAST GUARD DISTRICT (dpw)

431 Crawford Street, Portsmouth, Virginia 23704

Telephone (Day) : (757) 398-6229 or (757) 398-6552 or CGD5Waterways@uscg.mil

AIDS TO NAVIGATION DISCREPANCY REPORTING

To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:

1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR BALTIMORE at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR HAMPTON ROADS at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

ATLANTIC COAST – MAINE TO FLORIDA – PORT ACCESS ROUTE STUDY

Commander, Coast Guard Atlantic Area is seeking public comment on the Coast Guard's Atlantic Coast Port Access Route Study (ACPARS) Final Report. The ACPARS was initiated in 2011 to address the marine planning and navigation safety issues associated with offshore wind energy and future marine spatial uses. The report identifies navigation safety corridors along the Atlantic Coast that should be given priority consideration over other water space uses. The public comment period closes 13 Apr 2016. The final report is available:

http://www.uscg.mil/lantarea/acpars/docs/ACPARS_Final_Report_08Jul2015.pdf

The ACPARS Workgroup was given three objectives:

- (1) Determine whether the Coast Guard should initiate actions to modify or create Safety Fairways, Traffic Separation Schemes or other routing measures.
- (2) Provide data, tools and/or methodology to assist in future determinations of waterways suitability for proposed projects.

(3) Develop, in the near term, Automatic Identification System (AIS) products and provide other support as necessary to assist Districts with all emerging coastal and offshore energy projects.
Charts 5161, 11009, 11013, 13003

LNM: 13/16

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

LNM: 13/16

ECDIS DATA PRESENTATION AND PERFORMANCE CHECK

In order to promote safety of navigation, the International Hydrographic Organization (IHO) has produced two Electronic Navigational Chart (ENC) datasets designed to alert mariners to the possibility that their Electronic Chart and Display Information System (ECDIS) software may require upgrading. The IHO recommends that all mariners using ECDIS and ENCs visit the following website where they can find more information and instructions for using the test ENC datasets: <http://www.iho.int> > IHO News Links > ECDIS Data Presentation and Performance Check or directly from: http://www.iho.int/srv1/index.php?option=com_content&view=article&id=585&Itemid=828.

LNM: 09/12

IMPORTANT SAFETY NOTICE ABOUT THE RELIABLE OPERATION OF ECDIS

Following an announcement by the International Maritime Organization (IMO) concerning potential display anomalies in some ECDIS systems, the International Hydrographic Organization (IHO) issued an ENC Data Presentation and Performance Check in October 2011. This check is intended to assist mariners and to help determine the extent of the anomalies. IHO has received reports from mariners confirming that a number of ECDIS fail to display some significant underwater features in the "Standard" display mode. For all significant objects to be visible to the mariner, these ECDIS must be operated in "Full display" or "All display" mode until a software upgrade is made available from the manufacturer. Mariners are strongly encouraged to use the IHO ENC Data Presentation and Performance Check issued through ENC service providers and also available directly from the IHO website (www.iho.int) to check the operation of their ECDIS and to determine whether their system is affected. IHO Circular Letter 33/2012 is available on the Coast Guard's Navigation Center website (<http://www.navcen.uscg.gov>) under the heading News and Notices.

LNM: 12/12

CODE OF FEDERAL REGULATIONS – TITLE 33 PART 70 – INTERFERENCE WITH OR DAMAGE TO AIDS TO NAVIGATION

No person, shall take possession of or make use of for any purpose, or build upon, alter, deface, destroy, move, injure, obstruct by fastening vessels thereto or otherwise, or in any manner whatever impair the usefulness of any aid to navigation established and maintained by the United States.

Recently several offshore NOAA data buoys parted their moorings and became adrift due to excessive strain on the mooring. These navigational data buoys collect valuable on scene weather data for all mariners. These buoys are anchored to the seabed, and some have a watch circle radius of over 1 nautical mile. Once the mooring is parted and the buoy is adrift only certain Coast Guard resources can reset the aid back on its intended station. Coordinating of resources to retrieve the buoy, and place it back on station is time consuming and sometimes take weeks, thus valuable weather information cannot be obtained and relayed to mariners in need of it. Mariners are advised not to interfere with these aids to navigation and report any sightings of vessels tied off to them to the U.S. Coast Guard. Interference with or intentional damage to Aids to Navigation is a misdemeanor and shall be subject to a fine not exceeding the sum of \$500 for each offense (33 CFR 70.01).

LNM: 13/16

US - ATLANTIC SEACOAST - NORTH ATLANTIC RIGHT WHALES WARNING - ENDANGERED NORTH ATLANTIC RIGHT WHALES

Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. east coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Intentionally approaching within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted whale unless hazardous to the vessel or its occupants. The

National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-6622 or to the Coast Guard via channel 16. WHALESNORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr@noaa.gov.

LNM: 44/15

NOAA PRODUCTION OF LITHOGRAPHIC

The Federal Aviation Administration (FAA), NOAA's authorized lithographic printer, announced that the traditional printing of NOAA paper nautical charts will be discontinued effective April 13, 2014. In the interim time period, NOAA lithographic charts will still be available from FAA and chart agents. NOAA Print-on Demand charts (POD) will continue to be available through two authorized vendors. NOAA charts are also available as NOAA Raster Navigational Charts (RNC), Electronic Navigational Charts (ENC), and as a portable document format (PDF). For more information, please visit NOAA's Office of Coast Survey's homepage at <http://www.nauticalcharts.noaa.gov/>.

The POD charts produced by NOAA's POD partners are, and will continue to be considered published by NOAA, and will meet all mandatory carriage requirements as specified by navigation safety regulations: 33 CFR 164.01 and 33CFR 164.33.

LNM: 13/16

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code. The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code. LNM: 20/14

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT

All mariners are advised of the special protections provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (commonly called U-boats) located in waters off the North Carolina coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft except as authorized by law. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to \$100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest U.S. Coast Guard unit.

LNM: 45/09

SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS

The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

LNM: 04/11

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER

The United States Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS, DGPS, Navigational Rules, and maritime information. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via e-mail subscription through the USCG Navigation Center website (<http://www.navcen.uscg.gov/?pageName=gpsSubscribe>). In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS and AIS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: 703-313-5900, Email: webmaster@navcen.uscg.mil or on the World Wide Web at <http://www.navcen.uscg.gov>.

NAUTICAL CHART UPDATES

The National Ocean Service (NOS) has moved and expanded the function of its "critcorr" website. The new "Nautical Chart Updates" website allows the mariner to update their nautical charts from one database that includes information from NOS, and NGA Notice to Mariners, the Coast Guard Local Notice to Mariners and the Canadian Coast Guard Notice to Mariners. To access the website and for more information go to: and click on: <http://www.nauticalcharts.noaa.gov>.

NATIONAL OCEAN SERVICE (NOS) - CHARTS, PUBLICATIONS, AND TABLES - SALES AGENTS

Sales agents for Charts and Coast Pilots of the National Ocean Service are located in many U. S. ports and in some foreign ports. A list of authorized sales agents and chart catalogs is available free upon request from National Ocean Service, Distribution Division (N/ACC3), 6501 Lafayette Avenue, Riverdale, Maryland 20737.

2016 LIGHT LIST - THE 2016 LIGHT LIST IS NOW AVAILABLE

Coast Guard Light Lists are a means for communicating aids to navigation information to the maritime public. The last government printed Light Lists were the 2014 editions. While the Light Lists will no longer be available in government printed form, commercial reproductions may be available for purchase from maritime service providers. Local Notices to Mariners will continue to advertise Light List corrections and NAVCEN will continue to publish a compilation of corrections.

2016 Light Lists are available on the USCG Navigation Center's website at:

<http://www.navcen.uscg.gov/?pageName=lightLists>

Complete versions of the 2016 Light Lists are updated weekly on the NAVCEN website and mariners should download applicable copies and updates as needed at: <http://www.navcen.uscg.gov/?pageName=lightListWeeklyUpdates>.

A summary of 2016 Light List corrections are available at: <http://www.navcen.uscg.gov/?pageName=lightListCorrections>

Guidance for use of electronic navigation publications onboard U.S. vessels can be found at:

http://www.uscg.mil/hq/cgcv/cvc/policy/policy_letters/543/CG-543_pol10-05.pdf

LNM: 02/16

U.S. COAST PILOT 3 – ATLANTIC COAST: SANDY HOOK, NJ TO CAPE HENRY, VA -NEW 2016 EDITION

PUBLICATION–National Oceanic Atmospheric Administration (NOAA)– U.S. Coast Pilot 3, Atlantic Coast:

Sandy Hook, NJ to Cape Henry, VA, 49th Edition, 2016, has been issued and is ready for free download and weekly updates at <http://nauticalcharts.noaa.gov/nsd/cpdownload.htm>.

Only Print-on-Demand (POD) bound copies are available for purchase; see <http://www.nauticalcharts.noaa.gov/staff/charts.htm#POD>.

The 2016 Edition cancels the preceding 2015 Edition, and incorporates all previous corrections.

LNM: 04/16

BROADCAST NOTICES TO MARINERS

This section contains corrections to federal and private Aids to Navigation, as well as NOS Corrections. Navigation information having been of immediate concern to the Mariner and promulgated by the following Broadcast Notices to Mariners (BMNs) have been incorporated in this notice when still significant at the date of this publication.

CCGD5 (D5) - 124, 125, 126, 127, 128, 129, 130, 134, 135, 136, 138, 141, 142, 143, 144, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160-16.

Sector Delaware Bay (DB) -115, 118, 121, 122, 126, 127-16.

Sector Baltimore (BA) - 145, 151, 152, 155, 156, 158, 159-16.

Sector Hampton Roads (HR) - 033, 063, 079, 080, 082, 084, 085-16.

Sector North Carolina (NC) -130, 131, 136, 138, 142, 143, 145, 147, 148, 152, 153, 158, 159, 160, 161-16.

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

DISCREPANCIES (FEDERAL AIDS)

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only.

It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				at 40-41-09.001N	074-02-48.001W
	Green can					
Corrective Action	Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.

Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

Approved Project(s)

None

Project Date

Ref. LNM

Advance Notice(s)

VA - VIRGINIA INSIDE PASSAGE - DISCONTINUED AIDS TO NAVIGATION

The Coast Guard Fifth District will discontinue the aids to navigation listed below:

VIP Warning Daybeacon AA (LLNR 5520) to VIP Daybeacon 121 (LLNR 5990);

VIP Daybeacon 139 (LLNR 6060) to VIP Daybeacon 184 (LLNR 6220);

Great Machipongo Inlet Junction Light NC (LLNR 6875);

VIP Daybeacon 189 (LLNR 6237) to VIP Light 230 (LLNR 6390);

Virginia Inside Passage Junction Light GV (LLNR 6835);

Quinby Inlet Entrance Warning Daybeacon A (LLNR 6730) to Quinby Inlet Channel Daybeacon 5 (LLNR 6743); and

G. Sand Shoal Channel Light 1 (LLNR 6990) to Sand Shoal Light 10 (LLNR 6996).

Floating aids will be removed on or about March 21, 2016. In consultation with the state of Virginia, there is a plan to removed approximately 185 fixed aids to navigation as resources permit over the course of the next several years. Lighting equipment will be removed and the aids converted to daybeacons until they can be removed. The Coast Guard is concerned that many of the aids to navigation listed above may be misleading to the mariner due to the extreme shoaling and shallower waterways that have developed over the past several years. As a result, the Coast Guard can no longer safely best mark the waterway. Mariners and waterway users are advised to use extreme caution when navigating in the vicinity of the aids to navigation in these waterways.

The Coast Guard will continue to mark Bradford Bay Access, Great Machipongo Channel and Wachapreague Channel, as water depths permit.

LNM: 10/16

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

Proposed Project(s)

None

Closing

Docket No.

Proposed Change Notice(s)

COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES

Periodically, the Coast Guard, evaluates the system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing the aid is considered.

In this regard, the Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users can provide feedback by filling out the District 5 Waterway Proposals data/feedback form, located at the NAVCEN D5 LNM website:

http://www.navcen.uscg.gov/pdf/lnms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf

This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard with a request for comments as indicated.

LNM: 41/11

U.S. COAST GUARD – ATLANTIC OCEAN AND GULF OF MEXICO SEACOAST AIDS TO NAVIGATION SURVEY

This Coast Guard Waterways Analysis and Management System (WAMS) survey is focused on both the Atlantic Ocean and Gulf of Mexico Seacoast System, open water systems typically traveled by mariners arriving from an ocean voyage or transiting along the coast. In addition to stakeholder input, the study will also consider environmental concerns, user capabilities, available technology and available resources. This assessment is the first in a series of national-level reviews that are part of the Future of Navigation initiative. The initiative seeks to improve service delivery for marine safety information, modernize the Coast Guard's physical Aids-to-Navigation (ATON) system, incorporate Automatic Identification System (AIS) ATON where appropriate and improve communications with Marine Transportation System (MTS) stakeholders. Individual mariners and interested maritime industry representatives can provide input until May 31, 2016, at:

<https://www.surveymonkey.com/r/SeacoastWAMS>

LNM: 11/16

NJ – UPPER DELAWARE RIVER – WHITE HILL RANGE - DISCONTINUE AID TO NAVIGATION

The Coast Guard is proposing to discontinue White Hill Range Front Light (LLNR 4205) and White Hill Range Rear Light (LLNR 4210), due to inability to properly service the range system since 2015. In your comments, please address the impact these proposed changes may impose on your operation(s), as well as your means of navigation in this waterway.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on

navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf
All comments will be carefully considered and are requested prior to May 2, 2016 to be considered in the analysis.

LNM: 14/16

MD - SEACOAST - OCEAN CITY INLET – ESTABLISHMENT OF NEW METEOROLOGICAL TOWER

US Wind MD is proposing to establish a meteorological tower within the Maryland Wind Energy Area approximately 15.5 miles east of Ocean City, Maryland, and 6.5 miles south by southwest of Delaware Lighted Buoy D, which marks the terminus of the Southeastern Approach of the Delaware Bay Approach Traffic Separation Scheme. The tower will be located at 38 21 09.9 N, 074 45 12.8 W. Its mast height will be approximately 100 m (328 feet) above mean sea level, and will be made of steel construction, including Braced Caisson foundation (3 legs), deck, and lattice framework tower. The foundation and deck will be yellow, approximately comprising the first 60 feet of the structure above mean sea level. The tower lattice structure will be painted red and white, comprising the remainder of the tower height. The USCG has determined that the tower will be deemed a Class A structure, meeting the requirements of 33 CFR 67.20. This means it will be equipped with white obstruction lights with 5 mile visibility and a sound signal with 2 mile range. Additionally, the tower will be fitted with aircraft warning lights. US Wind anticipates establishing the tower in August 2016. Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at

http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf

All comments will be carefully considered and are requested prior to May 2, 2016 to be considered in the analysis.

Chart 12211

LNM: 14/16

VA – CHESAPEAKE BAY – CHESAPEAKE CHANEL - PROPOSAL TO REMOVE THE RACONS AND ADD SYNTHETIC AIS TO AIDS TO NAVIGATION

Due to the significant number of RACON failures associated with Chesapeake Channel Lighted Buoy 42 (LL 7275) and Chesapeake Channel Lighted Buoy 62 (LL 7440) the Coast Guard is proposing discontinuing the RACON's and establishing a SYNTHETIC AIS on each. AIS is an internationally adopted radio communication protocol that enables the autonomous and continuous exchange of navigation safety related messages amongst vessels, lifeboats, aircraft, shore stations, and aids to navigation (AIS ATON). AIS ATON stations broadcast their presence, identity (9-digit Marine Mobile Service Identity (MMSI) number), position, and status at least every three minutes or as needed. Synthetic AIS ATON signals can be received by any existing AIS mobile device, but they would require an external system for their portrayal (i.e., AIS message 21 capable ECDIS, ECS, radar, PC). How they are portrayed currently varies by manufacturer, but the future intention is for the portrayal to be in accordance with forthcoming International Standards (i.e., IEC 62288 (Ed. 2), IHO S-4 (Ed. 4.4.0)). Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at

http://www.navcen.uscg.gov/pdf/Inms/D5_LNM_2014_Special_Notice_Waterway_Proposal_Feedback_Form.pdf. All comments will be carefully considered and are requested prior to April 18, 2016 to be considered in the analysis. Refer to project number 05-16-051(D).

Send comments to Albert.L.Grimes@uscg.mil or CGD5Waterways@uscg.mil.

Charts: 12225 12226 12235 12280

LNM: 10/16

NC – BEAUFORT INLET - NEWPORT RIVER – TOWN CREEK - PROPOSAL TO DISCONTINUED AIDS TO NAVIGATION

The Coast Guard is proposing to Discontinue Town Creek Daybeacon 1 (LLNR 34880) and Town Creek Daybeacon 3 (LLNR 34890). Town Creek Daybeacon 1 is currently missing/destroyed and a Temporary Replacement Unlit Buoy (TRUB) is on station. With the recent bridge replacement project and the growth of Town Creek that has encroached into the federal project, Town Creek Daybeacons 1 and 3 now serve no lateral significance. Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at:

http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf

All comments will be carefully considered and are requested prior to April 18, 2016 to be considered in the analysis. Refer to project number 05-16-061(D).

Charts: 11541 11545

LNM: 11/16

PROPOSAL TO DISCONTINUE SOUND SIGNAL - BEAUFORT INLET CHANNEL LIGHTED GONG BUOY 15 (LLNR 29380)

The U.S. Coast Guard is proposing to discontinue the sound signal on

Beaufort Inlet Channel Lighted Gong 15 (LLNR 29380) 34-40-48.617N, 76-40-09.546W. In adherence to the U.S. Coast Guard Maritime Short Range Aids to Navigation Strategic Plan to reduce by 50% the number of sound signals on buoys due to the proliferation of electronic charting systems, the Fifth District Coast Guard Waterways Management Branch proposes the discontinuance of the sound signal on Beaufort Inlet Channel Lighted Gong Buoy 15 (LLNR 29380).

Mariners and other waterway stakeholders are encouraged to provide feedback using the USCG Fifth District Waterway Data Sheet. Refer to Project Number 05-16-056(D). All comments will be carefully considered and are requested prior to April 7, 2016 to complete the process.

Comments on this proposal in writing, either personally or through their organization, may be sent to james.l.fortin@uscg.mil or CGD5Waterways@uscg.mil.

Charts: 11544 11545

LNLM: 10/16

NC – BOGUE SOUND – PELETIER CREEK - PROPOSAL TO CHANGE AID TO NAVIGATION

The Coast Guard is proposing to change Peletier Creek Entrance Channel Daybeacon 2 (LLNR 38825) to Peletier Creek Entrance Channel Buoy 2 with the new AP 34-43-21N, 76-46-48W. Daybeacon 2 is currently missing/destroyed and a Temporary Replacement Unlit Buoy (TRUB) is on station. The most recent survey indicates shoaling to depths of less than 3 feet within Peletier Creek. The establishment of Peletier Creek Entrance Channel Buoy 2 returns the gated pair to the entrance of the channel while taking into consideration the present shoaling issues of the waterway. Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/DO5%20LNLM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf All comments will be carefully considered and are requested prior to April 18, 2016 to be considered in the analysis. Refer to project number 05-15-185(D).

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:

- Willoughby Bay

- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.

- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21 either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

LNLM: 01/16

VA -YORK RIVER - U.S. NAVAL WEAPONS STATION - CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE

A Danger zone has been established within an area beginning at Mean High Water on the shore at the U.S. Naval Weapons Station, Cheatham Annex facility on the York River, located at 37-17-33.10N, 076-36-19.06W; then northeast to a point on the York River at 37-18-36.650N, 076-34-39.010"W, thence south, southeast to 37-18- 59.37N, 076-34-13.65W; then southwest to a point on the shore located at 37-17-26.750N, 076-36-14.890W. Vessels may transit this area at any time, however, no vessel shall anchor, fish or conduct any waterborne activities within the Danger Zone established in accordance with this regulation any time live firing exercises are being conducted. Any time live firing is being conducted a red flag will be displayed in a conspicuous location along the shore to signify the range is active. At night, red lights will be displayed.

Chart 12241

LNM: 01/16

VA - COASTAL - U.S. NAVAL BASE DAM NECK, VIRGINIA BEACH - SMALL ARMS RANGE LIVE FIRE SCHEDULE

All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (45th) Edition when operating south of the entrance to the Chesapeake Bay, off the Dam Neck Naval Firing Range. When firing is in progress during daylight hours, red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

The U.S. Naval Base Dam Neck Live Fire Range will be active during periods advertised by Broadcast Notice to Mariners.

Charts: 12203 12205 12207 12221

LNM: 01/16

CODE OF FEDERAL REGULATIONS – TITLE 33 PART 70 – INTERFERENCE WITH OR DAMAGE TO AIDS TO NAVIGATION

No person, shall take possession of or make use of for any purpose, or build upon, alter, deface, destroy, move, injure, obstruct by fastening vessels thereto or otherwise, or in any manner whatever impair the usefulness of any aid to navigation established and maintained by the United States. Recently several offshore NOAA data buoys parted their moorings and became adrift due to excessive strain on the mooring. These navigational data buoys collect valuable on scene weather data for all mariners. These buoys are anchored to the seabed, and some have a watch circle radius of over 1 nautical mile. Once the mooring is parted and the buoy is adrift only certain Coast Guard resources can reset the aid back on its intended station. Coordinating of resources to retrieve the buoy, and place it back on station is time consuming and sometimes take weeks, thus valuable weather information cannot be obtained and relayed to mariners in need of it. Mariners are advised not to interfere with these aids to navigation and report any sightings of vessels tied off to them to the U.S. Coast Guard. Interference with or intentional damage to Aids to Navigation is a misdemeanor and shall be subject to a fine not exceeding the sum of \$500 for each offense (33 CFR 70.0).

LNM: 13/16

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS ESTABLISHMENT

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The

Bounding coordinates for each field are as follow:

AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.

AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.

AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.

AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines will be placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation. The scheduled implant dates for the minefields are 05-09 December, 2014.

Chart 12200

LNM: 01/16

VA – APPROACHES TO CHESAPEAKE BAY – HYDROPHONE DEPLOYMENT

The U.S. Navy has deployed four hydrophones in DANGER AREA 334.390 (W-50). The Hydrophones are located in the following approximate positions: 36-49.0N 075-52.7W, 36-49.0N 075-52.6W, 36-48.9N 075-52.5W, AND 36-48.8N 075-52.5W. The Hydrophones are moored at a depth of approximately 25 feet below the water surface, and they pose a hazard to trawler nets. The Hydrophones will be deployed for an indefinite amount of time for the purposes of collecting data in support of a U.S. Navy environmental impact survey of marine mammals in the Virginia Beach Coast Areas.

LNM: 07/15

NC - NEW RIVER - FIRING EXERCISES

1. The Commanding General, Marine Corps Installations East-Marine Corps Base Camp Lejeune (MCIE-MCB CamLej), North Carolina, has advised that the area in the Atlantic Ocean between a point approximately 4.5 miles east of Bogue Inlet to a point approximately 10 miles southwest of New River Inlet, North Carolina, within the existing danger zone (depicted as 334.440) as shown on National Ocean Service Chart 11543, will be hazardous to navigation because of field firing exercises during the periods and times stated below. Firing will be up to 15 nautical miles seaward. Vessels are urged to avoid the above area during the periods stated except for the Atlantic Intracoastal Waterway, where mariners traveling through this area can expect a delay of about one to four hours during the below times. Range Control Boats, MCIE-MCB CamLej North Carolina monitor Channel 16 VHF-FM (156.8 MHz) and the working Channel 82 VHF-FM (161.725 MHz). Range Control can be reached by phone at 910-451-3064 or 4449.

2. The restricted areas in the Atlantic Ocean East of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation because of firing exercises during the following periods:

Atlantic Coast Sector Live Fire Operations

8:00 a.m. to 5:00 pm Daily (USS Ship-Naval Gunfire)

8:00 a.m. to 10:00 pm Daily (Stinger Missiles and ranges)

Atlantic Coast Sector Non-Live fire operations

12:01 a.m. to Midnight Daily (USS Ship-Maneuvering)

3. The restricted areas in the New River, as shown on National Ocean Service Chart 11542, that WILL be closed to navigation because of Stone Bay Rifle Range firing exercises during the following periods:

Stone Creek Sector 12:01 a.m. to Midnight – daily

Stone Bay Sector 12:01 a.m. to Midnight – daily

West of the 77 (deg) 26(min) longitude line.

The restricted areas that MAY be closed to navigation because of firing exercises during the following periods:

Traps Bay Sector 12:01 a.m. to Midnight – daily

Courthouse Bay Sector 12:01 a.m. to Midnight – daily

Stone Bay Sector 12:01 a.m. to Midnight – daily

East of the 77 (deg) 26 (min) longitude line.

NC - NEW RIVER - FIRING EXERCISES

Grey Point Sector 12:01 a.m. to Midnight – daily

Farnell Bay Sector Sunrise to Sunset – daily

Morgans Bay Sector Sunrise to Sunset – daily

Jacksonville Sector Sunrise to Sunset – daily

4. The Target Bombing Area N1/BT-3 Impact Area in the Atlantic Ocean East of the New River Inlet as shown on National Ocean Service Chart 11543, may be closed to navigation because of firing exercises during the following periods:

N1/BT-3 Live Fire Operations:

8:00 a.m. to 5:00 pm Daily (USS Ship-Naval Gunfire)

8:00 a.m. to 10:00 pm Daily (Stinger Missile and ranges)

N1/BT-3 Non-Live Fire Operations:

12:01 a.m. to Midnight Daily (USS Ship-Maneuvering)

5. Atlantic Intracoastal Waterway, Inland Waters in the Browns Island Inlet area between Bear Creek and Onslow Beach, may be closed for firing exercises during the following periods:

Live Fire Operations:

8:00 a.m. to 5:00 pm Daily (USS Ship-Naval Gunfire)

8:00 a.m. to 10:00 pm Daily (Ranges)

Non-Live Fire Operations:

12:01 a.m. to Midnight Daily (Boat-Maneuvering)

6. Ship operations consisting of landing craft, amphibious vehicles, and helicopters may be conducted in the Onslow Beach operating area and all sectors of New River from 12:01 a.m. to Midnight – daily. Range Control Boats, MCIE-MCB CamLej North Carolina monitor Channel 16 VHF-FM (156.8 MHz) and the working Channel 82 VHF-FM (161.725 MHz). Range Control can be reached by phone at 910-451-3064 or 4449.

7. Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 070 degrees true and 150 degrees true, respectively, from a point on shore at 36- 48- 58.3N, 075- 57- 59.0W. All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (45th Edition) when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

LNM: 13/16

DREDGING AND MARINE CONSTRUCTION CAUTIONS

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

LNM: 01/16

NJ & PA – UPPER DELAWARE - DELAWARE RIVER - BRIDGE REHABILITATION

Mariners are advised to take caution when approaching the Burlington-Bristol (vertical-lift) Bridge on Route 413, at mile 117.8, across the Delaware River, between Burlington NJ and Bristol PA. The bridge will not be able to open for vessels for 72 hours from 6 a.m. Friday April 8, 2016 through Monday April 11, 2016 at 6:00 a.m. to facilitate replacement of the tender's control house. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Parts 117.5 and 117.716(b). The bridge will have 61 feet of vertical clearance in the closed position. A safety boat may be in the vicinity.

VA/NC – EMERGENCY BRIDGE OPERATING SCHEDULE, NORFOLK TO ALBEMARLE SOUND – NORTH LANDING RIVER OR GREAT DISMAL SWAMP

Mariners are advised that the S165 Bridge across the North Landing River mile 20.2, at Chesapeake, VA has sustained damage and will not be capable of normal operation until July 1, 2016. The north span of the bridge is fully operational and the south span of the bridge is limited in operational capability. The north span of the bridge will open-to-navigation on the hour and half hour, upon request, from 6 a.m. to 7 p.m., and on demand from 7 p.m. to 6 a.m. The north span of the bridge will open-to-navigation and the south span of the bridge will partially open-to-navigation, upon request, for scheduled openings at 10 a.m., noon and 2 p.m.; Monday through Friday. The horizontal clearance of the bridge with the south span closed-to-navigation is 38 feet and the horizontal clearance of the bridge with south span partially open-to-navigation is 70 feet. The north span of the bridge will open-to-navigation for emergencies. The vertical clearance of the bridge in the closed position is 6 feet above mean high water and vessels able to safely pass through the bridge in the closed position may do so, after receiving confirmation from the bridge tender that it is safe to transit through the bridge. Mariners should use extreme caution when transiting the area.

VA/NC – CAPE HENRY TO PAMLICO SOUND – INCLUDING ALBEMARLE SOUND

Mariners are advised that a construction firm, on behalf of the North Carolina Department of Transportation (NCDOT), will be constructing a new bridge to replace the Herbert C. Bonner Bridge across the Oregon Inlet, at mile 0.9, Dare County, NC. Construction activities will begin on March 7, 2016 and are expected to finish on August 30, 2019. Work will be on-going 24-hours per day, seven days a week. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge. A work trestle/loading dock will be constructed approximately 200 yards south of the southeastern end of the existing Bonner Bridge, on the southwest side of South Point in Pamlico Sound, extending 150 feet southwesterly from the shoreline and terminate at approximately 35.766 N, 75.526 W. Running parallel to the dock will be a 245 foot breast-line comprised of eight 36-inch hollow pipe piles spaced fifty feet apart, to be used for mooring purposes. The breast-line will begin near shore and terminate at approximately 35.765N, 75.527 W. Each pile will be lit by a flashing white light.

PCL Civil Constructors tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at <http://www.ncdot.gov/projects/bonnerbridgereplace/>.

NC – GALLANTS CHANNEL – BRIDGE CONSTRUCTION

Mariners are advised to take caution and proceed slowly when approaching the construction site of the new Gallant's Channel Fixed Bridge, over the Gallants Channel in Beaufort, North Carolina. To facilitate the process of girder raisings by Orion Marine Construction, commencing on the following dates and times construction cranes and barges will be in the channel: April 1, 2016 through April 8, 2016 from 7:00 am to 5:00 pm each day. All vessel traffic can expect delays and should adjust voyage plans accordingly. Vessels requiring greater than 25 feet horizontal clearance are recommended to use an alternate route until this phase of girder raisings are completed. Construction equipment will be removed from the channel each evening. The Orion Marine Construction onsite work supervisor can be contacted on VHF channel 13 and telephone at (813) 334-0208. Mariners are urged to transit the area at slow no wake speeds.

Chart 11545

LNM: 12/16

NC – CAMP LEJEUNE – AICW – TRAINING

Under the provision of 33 Code of Federal Regulations, Part 165.514 the Coast Guard is establishing a temporary safety zone on the Atlantic Intracoastal Waterway (AICW) adjacent to Marine Corps Base Camp Lejeune, North Carolina, which encompasses the navigable waters of the AICW between Mile Hammock Bay and the Onslow Beach Swing Bridge (34°37'57"N/077°12'18"W and 34°33'07"N/077°20'30"W) in support of military training operations. Due to the need to protect mariners on the navigable waters from the hazards associated with the military training operations, vessel traffic will be temporarily restricted on the AICW between Hammock Bay and the Onslow Beach Swing Bridge, on the following dates and times:

March 28 - 30, 2016 6:00 a.m. until 8:00 p.m.

March 31, 2016 8:00 a.m. until 12:00 p.m. & 1:00 p.m. until 5:00 p.m.

Persons or vessels requiring entry into, or passage through, any portion of the safety zone during the above temporary closures must first request authorization from the Captain of the Port or on scene designated representatives on board U.S. Navy safety vessels. The Captain of the Port can be contacted via telephone at (910) 343-3882 or by radio on VHF Marine Band Radio, channels 13 and 16. On scene U.S. Navy safety vessels can be contacted via VHF Marine Band Radio, channels 13 and 16.

NC – CAROLINA BEACH INLET- DREDGING

The Dredge CHARLESTON will commence dredging operations in the Carolina Beach Inlet on March 12, 2016. The project includes dredging in Carolina Beach Inlet between the Atlantic Intracoastal Waterway and Carolina Beach Inlet Buoy 9 (LLNR 30305). A pipeline will be placed between the dredge and the southern shoreline of the inlet. The project will continue until approximately April 30, 2016. All mariners are requested to stay clear of the dredge, booster, floating (including pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Operators of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment. The project will be conducted twenty – four (24) hours per day seven (7) days a week. The Dredge Operator will be standing by on channels 13 and 16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage.

Mariners are advised to take caution and proceed slowly when approaching the construction site of the new Wilmington Bypass Bridge, over the Cape Fear River, mile 35.5, in Brunswick and New Hanover Counties, NC. All vessel traffic can expect delays and should adjust voyage plans accordingly when transiting this area. To facilitate the process of girder raisings by Balfour Beatty Infrastructure, commencing on the following dates and times vessels requiring greater than 20 feet horizontal clearance and 12 feet vertical clearance must provide at least 24 hours notice to remove construction barges and equipment out of the channel: March 31, 2016 6:00 pm to 11:59 pm, April 4, 2016 6:00 pm to 11:59 pm, April 7, 2016 6:00 pm to April 8, 2016 8:00 pm. The Balfour Beatty Infrastructure onsite work supervisor can be contacted on VHF channel 13 and telephone at (910) 622- 4718 or (910) 231- 0723 to arrange removal of the barges and equipment from the channel. Mariners are urged to transit

NC - CAPE FEAR RIVER - WILMINGTON BYPASS BRIDGE CONSTRUCTION

the area at slow no wake speeds.

5. Summary of Coast Guard Sector Hampton Roads shoaling/waterway projects.

SUMMARY OF D5 BRIDGE PERMITS/REGULATIONS/CONSTRUCTION

(Yellow indicates new item)

CURRENT PROJECTS

Permits:

SECTOR BALTIMORE

- **Maryland** - None
- **Washington DC**
Anacostia River – Frederick Douglass Memorial/South Capitol Street (swing) Bridge – District of Columbia Department of Transportation is proposing to replace the existing drawbridge with a new fixed bridge at essentially the same location. The replacement project will modify the existing vertical and horizontal clearance of the bridge. Presently, in the closed position to vessels, the charted vertical clearance of the existing swing-type bridge is 40 feet above MHW, with unlimited vertical clearance in the full open position. The existing horizontal clearance is two channels of 149 feet each. The proposed replacement will be a fixed bridge that will provide a vertical clearance of 42 feet above MHW with a proposed horizontal clearance of 150 feet.
- **Virginia (Northern)**
Potomac River – US 301/Harry W. Nice Memorial (fixed) Bridge Crossing - Study underway to consider rehabilitation or replacement of existing bridge. Draft FONSI has been released. MDTA is developing Navigation Evaluation to propose navigational clearances.

SECTOR DELAWARE BAY

- **Delaware** - None
- **New Jersey (Central & Southern)**
Raccoon Creek – US 130 (fixed) Bridge - proposed new fixed bridge structure to replace (lift) bridge. Permit 2-15-5 signed December 9, 2015.
- **Pennsylvania** - None

SECTOR HAMPTON ROADS

Virginia (Southern)

AlcW – Elizabeth River Southern Branch – I-64/High Rise Bridge – VDOT has proposed a fixed bridge with a minimum vertical clearance of 100 feet above mean high water, while maintaining the existing 125-foot horizontal clearance. The information gathered as a result of this preliminary public notice will assist the U.S. Coast Guard in determining adequate minimum vertical and horizontal clearances for the proposed crossing of the Southern Branch of the Elizabeth River. Public Notice 5-1360 was published on December 4, 2015 and comments were received for the record at the office of Commander (dpb), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, VA 23704-5004 from December 4, 2015 through January 4, 2016. The Coast Guard is currently reviewing comments received.

SECTOR NORTH CAROLINA

- **North Carolina** - None

Regulations:

SECTOR BALTIMORE

- **Maryland** – None
- **Washington, DC & Virginia (Northern)** – None

SECTOR DELAWARE BAY

- **Delaware** – None
- **New Jersey (Central & Southern)**
NJICW – Barnegat Bay – SR37 (vertical-lift) Bridge – The CG is temporarily modifying the drawbridge operating schedule between December 1, 2015 and March 31, 2018. Over the span of two and half years, the drawbridge will be closed to navigation for three four-month closure periods in the winter months. Extensive replacement of parts and repairs to the bridge necessitate these closures.
- **Pennsylvania** – None

SECTOR HAMPTON ROADS

Virginia (Southern)

Black Narrows & Lewis Creek Channel – SR 175 (basculin) Bridge – Test regulation and Public Notice 5-1340 was issued; comment period ended October 2, 2014. The deviation tested a change for the drawbridge operation schedule to determine whether a permanent change to the schedule was needed to open on demand. Final Rule to be published in Federal Register.

SECTOR NORTH CAROLINA

- **North Carolina** - None

Construction, et al:

SECTOR BALTIMORE

- **Maryland**
Susquehanna River – US 40 & I-95/Hayden & Tydings (fixed) Bridges – Foundation and substructure repairs are in progress through 2016.
Susquehanna River – I-95 Millard E Tydings Memorial (fixed) Bridge – Cleaning, painting, and repairs are in progress through August 2017. During daylight hours Monday through Saturday a barge and crew boat will be working in various locations near the structure and a debris shield will be secured to the lower truss member throughout the bridge but will not affect navigational clearances.
Curtis Creek – I-695 Baltimore Beltway (fixed portions) Bridge – Painting work is scheduled to continue through the fall of 2016. To facilitate the work, a platform will reduce the available vertical clearance outside the channel to 49 feet above MHW.

Potomac River – Arlington Memorial Bridge - Mariners are advised that emergency concrete and steel repairs will be conducted from August 17, 2015 until July 1, 2016. Work will be completed from a barge anchored in and around the navigable channel and will be relocated outside the channel during non-working hours. The bridge has a vertical clearance of 30 feet at MHW and a horizontal clearance of 142 feet when unobstructed. Mariners should exercise extreme caution when transiting the area.

Choptank River – MD 331/Dover (fixed) Bridge – CG Bridge Permit signed by CGHQ on September 16, 2014. Maryland State Highway Administration is constructing a new fixed single-span concrete bridge, adjacent to the existing swing bridge to be completed in March 2016. The existing swing bridge will be retained for historic purposes and placed in the open position to navigation. The new bridge will have a vertical clearance of 48.5 feet above mean high water (MHW) and a horizontal clearance with two separate 80-foot channels between face of pilings.

Chester River - S213 (MD213) Bridge - The bridge will be maintained in the closed-to-navigation position between 6 a.m. on February 22, 2016 until 6 p.m. on June 1, 2016 to facilitate a bridge stringer replacement project. During the closure period the bridge will be able to open for emergencies, if at least six hours notice is given. The vertical clearance of the bridge in the closed position is 12 feet above mean high water and vessels able to safely pass through the bridge in the closed position may do so, after receiving confirmation from the bridge tender that it is safe to transit through the bridge. Mariners should use caution when transiting the area.

Patuxent River - S231 (MD-231) (Patuxent River Bridge) – An inspection will be conducted between March 28, 2016 and April 30, 2016; from 8 a.m. to 6 p.m. The underside of the bridge will be accessed by a boat and a snooper truck will be located on the bridge. Inspection personnel, equipment and vessels will relocate from the movable span navigable channel, upon request, to facilitate safe navigation through the bridge. Inspection personnel, equipment and vessels will relocate from the movable span navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13 and (410) 320-8537. The project foreman can be reached at (410) 322-1505. Mariners should use caution when transiting the area.

South River - MD-2 (South River) Bridge - Underwater inspections will be conducted between April 1, 2016 and June 15, 2016; from 8:30 a.m. to 4:30 p.m. A 25' work boat and dive team will be on site. Inspection personnel, equipment and vessels will relocate from the navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Wicomico River - US 50 BUS (Ocean Gateway) Bridge – Underwater inspections will be conducted between April 1, 2016 and June 15, 2016; from 8:30 a.m. to 4:30 p.m. A 25' work boat and dive team will be on site. Inspection personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Cambridge Creek - S342 (MD-795) (Market Street) Bridge - Underwater inspections will be conducted between April 1, 2016 and June 15, 2016; from 8:30 a.m. to 4:30 p.m. A 25' work boat and dive team will be on site. Inspection personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Pocomoke River - MD-12 (Pocomoke River) Bridge – Underwater inspections will be conducted between April 1, 2016 and June 15, 2016; from 8:30 a.m. to 4:30 p.m. A 25' work boat and dive team will be on site. Inspection personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Choptank River - US 50 (Ocean Gateway) Bridge – Underwater inspections will be conducted between April 1, 2016 and June 15, 2016; from 8:30 a.m. to 4:30 p.m. A 25' work boat and dive team will be on site. Inspection personnel, equipment and vessels will relocate from the navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Kent Island Narrows - MD-18B (Main Street) Bridge and US 50/301 (Blue Star Memorial Highway) Bridge – Underwater inspections will be conducted between April 1, 2016 and June 15th, 2016, from 8:30 a.m. to 4:30 p.m. A 25' boat work boat and dive team. Inspection personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (410) 877-5016. Mariners should use caution when transiting the area.

Nanticoke River - US 50 (Nanticoke River) Bridge - Inspection will be conducted between April 4, 2016 and April 29, 2016; from 7 a.m. to 5 p.m., Monday-Friday. The underside of the bridge will be accessed by two snooper trucks on the bridge. Inspection personnel and equipment will relocate from the underside of the bridge, upon request, to facilitate safe navigation through the bridge. The project foreman may be reached at 443-540-4719. Mariners should use caution when transiting the area.

Severn River - US 50 (John Hanson Hwy) Bridge - Inspections will be conducted between April 11, 2016 and June 30, 2016; from 7 a.m. to 5 a.m. A barge will perform inspections weekdays from the hours of 7 a.m. to 5 p.m. A snooper truck will be performing inspections weeknights from 10 p.m. to 5 a.m. Inspection personnel, equipment and vessels will relocate from the navigable channel, upon request. The barge may be reached on VHF-FM channel 13. The project foreman can be reached at 202-270-5807 or 571-212-9266 or 443-243-4067. Mariners are requested to notify the project foreman fifteen minutes prior to navigation through the area and should use caution when transiting the area.

Spa Creek - S181 (6th Street) Bridge - Inspections will be conducted between April 19, 2016 and April 21, 2016; from 9 a.m. to 3 p.m. Testing of the movable span will be performed and will include multiple openings. The

underside of the bridge will be accessed by a boat and a snooper truck. Inspection personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request, to facilitate safe navigation through the bridge. The project foreman can be reached on VHF-FM channel 13 or 443-794-8275. Mariners should use caution when transiting the area.

- **Washington DC –**

Potomac River – Arlington Memorial Bridge - Mariners are advised that emergency concrete and steel repairs will be conducted from August 17, 2015 until July 1, 2016. Work will be completed from a barge anchored in and around the navigable channel and will be relocated outside the channel during non-working hours. The bridge has a vertical clearance of 30 feet at MHW and a horizontal clearance of 142 feet when unobstructed. Mariners should exercise extreme caution when transiting the area.

Potomac River - Francis Scott Key (fixed) Bridge - DDOT has completed a design for rehabilitation. This work commenced in May 2015 and is scheduled to continue for two years (OOA May 2017). Most of the work has to do with repairing cracks on the concrete arches, floor beams, piers and abutments, and repairing some deterioration of the underside of the bridge deck.

Washington Channel – Francis Case Bridge - Scaffolding will be installed on the bridge from December 5, 2015 until June 1, 2016. The charted vertical clearance of the bridge is 18 feet above mean high water and the scaffolding will restrict the vertical clearance by 4 feet, leaving a vertical clearance of 14 feet available. Red quick flashing lights will be installed every 10 feet to mark the edge of the scaffolding. Mariners should exercise extreme caution when transiting the area.

Potomac River – Washington DC Long Bridge – Maintenance will be performed on the bridge between March 10, 2016 and March 28, 2017. There is no pier work or work over the navigational channel. Mariners should use extreme caution when transiting the area.

Virginia (Northern) - None

SECTOR DELAWARE BAY

- **Delaware - None**

- **New Jersey (Central & Southern)**

Delaware River – Commodore Barry (fixed) Bridge – To facilitate painting, work will continue until March 2016. Work platforms will be installed 3 feet beneath the bridge in various locations reducing the vertical clearance to 178 ft. above mean high water at the edge of the navigable channel (187 ft. center of channel). Mariners should exercise caution.

Drag Channel & Great Egg Harbor Bay (GEHB) – Garden State Parkway (fixed) Bridges - Marine work consisting of several activities including but not limited to temporary cofferdam construction, superstructure erection and demolition are in progress through December 2018 for the replacement of the existing southbound bridges and rehabilitation of the northbound bridges. In addition to replacing the southbound causeway, the project includes the demolition of the remaining portions of the Beesely's Point Bridge (US Route 9 over GEHB and Drag Channel). Daily hours of construction operations are Monday through Saturday from 7 a.m. to 5 p.m. with a second shift and 24-hour operations scheduled for specific activities. It is anticipated that closure or reduced horizontal clearance of the navigational channels will be required.

ICW – Manahawkin Bay – State Route 72 (fixed) Bridges – Construction work will continue from December 2015 through February 2016 in the vicinity of the existing and new Route 72 Bridges. The existing navigation channel will remain clear during the project except from December 10, 2015 until December 24, 2015 when the channel width will be restricted by 30 feet for a lighted work barge. The bridge will have a 55 feet vertical clearance above mean high water (MHW) over the navigational channel and a 100 feet horizontal clearance between fender systems when complete. The construction operations will include removal of work trestles, fender installation, and lighting installation. Tugboats and barges will be used and will monitor VHF Channel 13 in the event that mariners need to contact the contractor. Mariners should use extreme caution when transiting the area.

Nacote Creek – Old New York Road (fixed) Bridge – Priority repair operations will take place from October 1, 2015 through April 2016 from barges in and near the channel with the ability to move away from the channel when requested.

Oldmans Creek – US 130 Bridge – Bridge repairs will be performed from November 1, 2015 through March 31, 2016. Wedges, pier repair, floor beam work, counter-weight support work, and cleaning and painting will be completed. We are advising mariners to use extreme caution when transiting the area.

Delaware River - Interstate 276/Delaware River Turnpike Bridge - Repainting and miscellaneous improvements will be performed from mid-November 2015 through December 31, 2017. All work on the bridge superstructure will be performed 7 am to 7 pm during the week and 6 am to 6 pm on the weekends. The overhead work will never occupy more than 55% of the channel and will reduce the vertical clearance by 5 ft. The construction company can be contacted at 856-429-3400. Mariners should use extreme caution when transiting the area.

Barneget Bay (New Jersey Intracoastal Waterway) - Thomas Mathis Bridge (SR37) - Repairs, including rehabilitation of the bascule span, will require the bridge to be maintained in the closed-to-navigation position from 8 p.m. on March 31, 2016 through 8 p.m. April 17, 2016. The vertical clearance of the bridge in the closed position is 30 feet above mean high water and vessels able to safely pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area.

Delaware River – Rte 413 Burlington-Bristol Bridge - To facilitate replacement of the tender's control house, the bridge will not be able to open for vessels for 72 hours from 6 a.m. Friday April 1, 2016 through Monday April 4, 2016 at 6 a.m. The alternate marine closure period will be Friday April 8, 2016 at 6 a.m. through Monday April 11, 2016 at 6:00 a.m. The bridge has 61 feet of vertical clearance in the closed position. A safety boat may be in the vicinity.

Pennsylvania –

Delaware River – Walt Whitman Bridge (I-76) - Painting of the suspension spans and towers will be conducted from October 19, 2015 to March 31, 2018, between 7 a.m. and 5 p.m. daily. A work platform extending 3 feet beneath the lower portion of the bridge will be installed over the entire length of the bridge. The vertical clearance of the bridge will be reduced by 3 feet to approximately 136 feet above MHW. Mariners should use caution when transiting the area.

Delaware River - Interstate 276/Delaware River Turnpike Bridge - Repainting and miscellaneous improvements will be performed from mid-November 2015 through December 31, 2017. All work on the bridge superstructure will be performed 7 am to 7 pm during the week and 6 am to 6 pm on the weekends. The overhead work will never occupy more than 55% of the channel and will reduce the vertical clearance by 5 ft. The construction company can be contacted at 856-429-3400. Mariners should use extreme caution when transiting the area.

Delaware River – Rte 413 Burlington-Bristol Bridge - To facilitate replacement of the tender's control house, the bridge will not be able to open for vessels for 72 hours from 6 a.m. Friday April 1, 2016 through Monday April 4, 2016 at 6 a.m. The alternate marine closure period will be Friday April 8, 2016 at 6 a.m. through Monday April 11, 2016 at 6:00 a.m. The bridge has 61 feet of vertical clearance in the closed position. A safety boat may be in the vicinity.

SECTOR HAMPTON ROADS

- ***Virginia (Southern)***

AICW – Elizabeth River Southern Branch – Dominion Blvd Replacement (fixed) Bridge Project – Contractors have installed the permanent beam and construction continues through March 2017. The fixed height is at 95 feet above MHW. The old steel (basculer) bridge spans have been completely removed.

Lynnhaven Inlet – US 60/John A. Lesner (fixed) Bridge – Work is in progress through June 2017 for a new replacement bridge at essentially the same location. The new bridge will have a vertical clearance of 45 feet above MHW, along with a horizontal clearance of 150 feet between face of the fenders. A dredge material placement site will be located southwest of the existing bridge, adjacent to the boat ramp facility and used as a staging area. The contractor will access the lay down and staging area via the waterway through a proposed temporary bulkhead.

Mattox Creek – Route 205/James Monroe Highway (fixed) Bridge – Work is in progress through July 1, 2016 to complete demolition and replacement the existing fixed highway bridge, with a new two-lane fixed highway bridge on the same alignment. The new bridge will have a vertical clearance of 4.7 feet above mean high water, along with a horizontal clearance of 49.5 feet between piles.

North Landing River - S165 Bridge – Bridge has sustained damage and will not be capable of normal operation until July 1, 2016. The north span of the bridge will open-to-navigation on the hour and half hour, upon request, from 6 a.m. to 7 p.m., and on demand from 7 p.m. to 6 a.m. The north span of the bridge will open-to-navigation and the south span of the bridge will partially open-to-navigation, upon request, for scheduled openings at 9:30 a.m. for vessels transiting southeast, 10:30 a.m. for vessels transiting northwest, and noon and 2 p.m. for two-way vessel traffic through the bridge; Monday through Friday. The horizontal clearance of the bridge with the south span closed-to-navigation is 38 feet and the horizontal clearance of the bridge with south span partially open-to-navigation is 70 feet. The north span of the bridge will open-to-navigation for emergencies. The vertical clearance of the bridge in the closed position is 6 feet above mean high water and vessels able to safely pass through the bridge in the closed position may do so, after receiving confirmation from the bridge tender that it is safe to transit through the bridge. Mariners should use extreme caution when transiting the area.

Appomattox River - Seaboard System Railroad Bridge (CSX) - Maintenance will be conducted between March 28, 2016 and April 15, 2016; from 7 a.m. to 7 p.m., 7 days a week. During this time, repair and rehabilitation of the swing bridge machinery will occur. Maintenance personnel, equipment and vessels will relocate from the movable span and navigable channel, upon request. The bridge tender may be reached on VHF-FM channel 13. The project foreman can be reached at (813) 613-4324. Mariners are reminded to provide at least 24 hours notice for a bridge opening. Mariners should use extreme caution when transiting the area.

SECTOR NORTH CAROLINA

- ***North Carolina***

Gallants (Beaufort) Channel – US 70/Grayden Paul (fixed) Bridge – Work is in progress through May 31, 2017 for construction of a high-level fixed bridge relocated between Radio Island and Michael J Field in Carteret County. When completed, the new high-level fixed bridge will have a vertical clearance of 65 feet above MWH, along with a horizontal clearance of 100 feet between pile bents. The construction operation will include in-water work involving pile driving, concrete placement, girder setting, and concrete deck installation with post tensioning. Tugboats and barges will be used and will monitor VHF channel 13 in the event that mariners need to contact the contractor. Waterway closures are being planned.

Cape Fear River – Wilmington Bypass (fixed) Bridge – Construction of new highway bridge in Brunswick and New Hanover Counties, NC. When completed, the Cape Fear River Bridge will have a vertical clearance of 64 feet at mean high water and a horizontal clearance of 160 feet. Work barges and structures will be located along the sides of the waterway through December 2016. The channel shall remain open to navigation.

Oregon Inlet - Herbert C. Bonner Bridge – Construction activities for the replacement bridge will begin on March 7, 2016 and are expected to finish on August 30, 2019. Work will be on-going 24-hours per day, seven days a week. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge. A work trestle/loading dock will be constructed approximately 200 yards south of the southeastern end of the existing Bonner Bridge, on the southwest side of South Point in Pamlico Sound, extending 150 feet southwesterly from the shoreline and terminate at approximately 35.766 N, 75.526 W. Running parallel to the dock will be a 245 foot breast-line comprised of eight 36-inch hollow pipe piles spaced

fifty feet apart, to be used for mooring purposes. The breast-line will begin near shore and terminate at approximately 35.765N, 75.527 W. Each pile will be lit by a flashing white light. PCL Civil Constructors tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at <http://www.ncdot.gov/projects/bonnerbridgereplace/>.

FUTURE PROJECTS:

Permits/Construction:

- **Maryland**
Potomac River - Theodore Roosevelt (fixed) Bridge - DDOT is conducting an investigation and assessment of the bridge, which will be completed winter of 2015. They'll assess structural condition, needs for extended life cycle, and safety compliance improvements. Then will do a design analysis of alternatives with construction in the future (no date given).
- **Washington, DC** –
Anacostia River – 11th Street Bridge Park – Proposed fixed pedestrian bridge park to be built on retained substructure of old 11th Street Bridge.
- **Virginia (Northern)** - None
- **Delaware** – None
- **New Jersey (Central & Southern)** – None
- **Pennsylvania** – None
- **Virginia (Southern)** – None
- **North Carolina**
Mid-Currituck Sound (fixed) Bridge – Proposed new fixed structure in final review of the design.
Perquimans River – US 17 business (fixed) Bridge – Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package.
Alligator River – US 64 (fixed) Bridge Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package.
Atlantic Intracoastal Waterway – SR 50 Sears Landing Surf City (fixed) Bridge Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package.
Cape Fear River – Wilmington bypass south (fixed) Bridge Proposed new fixed bridge structure in review of the design and environmental package.
Straits Waterway - Harkers Island Bridge – Proposed new fixed bridge structure to replace existing swing span bridge (Bridge No. 73). Draft Vessel Height Survey Report in review.
Mad Inlet (Unnamed Tributary) – Sunset Beach West, LLC Bridge - All interested parties are notified that the Commander, Fifth Coast Guard District has received an application from Cape Fear Engineering, on behalf of Sunset Beach West, LLC, for a bridge to be constructed across navigable waters of the United States. Sunset Beach West, LLC proposes to construct a wooden bridge at the west end of West Main Street (SR 1177) over an unnamed tributary to Mad Inlet in Sunset Beach, Brunswick County, NC. The purpose of this supplemental public notice is to provide an opportunity to make additional comments. Public Notice 5-1359 was released on January 8, 2016. The applicant is also requesting a waiver of a bridge permit under Title 33 Code of Federal Regulations, Section 115.70; Advance approval for bridges. Advance approval waterways are those that are navigable in law, but not actually navigated by other than small boats. The Commandant of the Coast Guard has given advance approval to the construction or repair of bridges across such waterways. Comments on this proposal should be forwarded to the above address no later than **March 9, 2016**. Note: This date for acceptance of comments is extended to reflect thirty (30) days from the date this LNM article was published. A copy of **Supplemental Public Notice 5-1359a**, which describes the proposal in detail, can be obtained by calling (757) 398-6222 or by viewing at <http://www.navcen.uscg.gov/?pageName=pnBridges>.

Regulations:

- **Maryland** – None

- **North Carolina** – None

SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS CURRENTLY IN PROGRESS

PA – Delaware River – Marcus Hook, Pa – Dock Construction (Chart 12312)

Commerce Construction Corporation crane barge SAMSON will be performing dock construction work on the Sunoco logistics dock #1A in the Delaware River at the Marcus Hook industrial complex, Marcus Hook, PA. Work is expected to be completed on or about **30 June, 2017**. Ref LNM 05/16

PA – Delaware River – Critical Lift Operations (Chart 12312)

Mariners are advised that the crane barge SAMSON will be conducting critical lift operations in the Delaware River, in Marcus Hook, PA from February until **30 June, 2017**. Ref LNM 08/16

NJ – Barnegat Inlet To Little Egg Inlet Long Beach Sound – Beachfill Operations (Charts 12323, 12318)

PADRE ISLAND, DODGE ISLAND, and LIBERTY ISLAND conducting beach fill operations along the Atlantic Ocean coastline from Beach Haven to Loveladies until **April, 2016**. Ref LNM 16/15

NJ – Great Egg Harbor Bay – Drag Channel - Bridge Construction And Demolition Update (Chart 12316)

Mariners are advised that marine work consisting of several activities including but not limited to temporary cofferdam construction, superstructure erection and demolition are in progress through **December 2018** for the replacement of the existing southbound bridges carrying the Garden State Parkway, and rehabilitation of the northbound bridges carrying the Garden State Parkway. Ref LNM 03/16

NJ – Intracoastal Waterway – Sandy Hook To Little Egg Harbor – Barnegat Bay - Bridge Maintenance (Chart 12324)

Mariners are advised that repairs, including rehabilitation of the bascule span, on the Thomas Mathis Bridge (SR37), at mile 14.1, across Barnegat Bay, New Jersey Intracoastal Waterway, at Seaside Heights, NJ require the bridge to be maintained in the closed-to-navigation position from 8 p.m. on March 31, 2016 through 8 p.m. **April 17, 2016**. Ref LNM 08/16

NJ – Great Egg Inlet to Townsends Inlet – Dredging

Great Lakes Dredge & Dock Company dredge ILLINOIS is currently conducting dredging operations from Corson's Inlet borrow area located directly northeast of the north end of Strahmere and southeast of the south end of Peck Beach. Work is expected to be completed by approximately by **15 April, 2016**. Ref LNM 01/16

NJ – Intracoastal Waterway – Sandy Hook To Little Egg Harbor – Barnegat Bay – Bridge Maintenance (Chart 12324)

On the Thomas Mathis Bridge (SR37), at mile 14.1, over the Barnegat Bay are scheduled between **15 July 2015 and 31 May 2018**. Ref LNM 28/15

NJ - CAPE MAY HARBOR – SOUTH JERSEY MARINA BASIN - DREDGING

Southern Maryland Dredging will be conducting dredging operations the South Jersey Marinas basin located on Schellenger Creek off of Cape May Harbor, in Cape May, NJ from March 11, 2016 until **April 18, 2016**. Ref LNM 14/16

DE/NJ – Delaware Bay - Dredging

Mariners are advised that Weeks Marine vessels B.E. LINDHOLM and R.N. WEEKS have completed dredging and are currently conducting demobilizing dredging pipelines and equipment in Delaware Bay, near Lewes, DE until **April, 2016**. Ref LNM 21/15, LNM 45/15

NJ – Mantua Creek – Construction (Chart 12312)

Construction on the Conrail Railroad E. Jefferson Street Bridge over the Mantua Creek in Paulsboro, NJ will continue until **April, 2016**. Ref LNM 42/15

MD – Susquehanna River – Conowingo Reservoir – Construction (Chart 12274)

Old Dominion Electric Corporation will commence construction of the Wildcat Point Generation Facility water intake/discharge infrastructure within the Conowingo Reservoir starting on 18 January, 2016, with construction expected to last approximately **30 September, 2016**. Ref LNM 02/16

MD – Baltimore Harbor – Ft Mchenry – Seagirt – Brewerton Eastern Extension – Craighill Channels – Dredging (Chart 12280)

Mariners are advised that Great Lakes Dredge and Dock Company dredges DREDGE 54 AND DREDGE 55 have begun dredging operations within the Fort McHenry, Seagirt, Brewerton Eastern Extension and Craighill Channels, with a completion date expected on or about **12 July, 2016**. Ref LNM 08/16

MD – Chesapeake Bay – Approaches To Baltimore Harbor – Baltimore Harbor – Marine Construction Project (Chart 12281)

Pier rebuilding project at Dundalk Marine Terminal Berth 4 in Baltimore, MD until **July 2016**. Ref. LNM 30/14

MD - Chesapeake Bay - Susquehanna River - Bridge Repairs (Chart 12274)

Blastech Enterprises, will be conducting repairs, cleaning, and painting on the Millard E. Tydings Memorial Bridge on I-95, at mile 3.2, over Susquehanna River in Havre De Grace, MD, from April 15, 2015 through **15 August, 2016**. Ref LNM 11/15

MD – CHESAPEAKE – CHOPTANK RIVER – TEST BORINGS (Chart 12268)

Hillis-Carnes Engineering associates will be conducting operations to drill test borings from a small barge on the upstream and downstream side of the 404 hwy over the Tuckahoe Creek in Hillsboro Maryland from March 28 to **April 30, 2016**. Should you require any additional information please call Brian Siwinski at 410-609-0363. Ref LNM 12/16

MD – Chesapeake Bay – Eastern Bay - Shoreline Improvement Project

Mariners are advised that a shoreline improvement project is scheduled to occur in Eastern bay from February 8, 2016 through **March 30, 2016**. Ref LNM 02/16

MD – Chesapeake Bay – Severn River – Spa Creek – Annapolis Harbor – Marine Construction Project (Chart 12282.12283)

Mariners are advised that a bulkhead replacement project is scheduled to occur in Annapolis Harbor from October 26, 2015 through **25 April, 2016**. Ref LNM 41/15

MD/DC – Anacostia River – Washington D.C. – Marina Construction (Chart 12285)

Bellingham Marine has commenced construction of multiple docking facilities for the Yards Marina on the Anacostia River, in Washington D.C. near Yards Park. Construction is expected to be completed sometime in **May of 2016**. Ref LNM 37/15

DC – Upper Potomac River/Washington Channel (Chart 12289)

Dockside demolition/bulkhead repair until **December, 2020**. Ref: LNM 12/14

DC – Potomac River – Washington Channel – Bridge Maintenance (Chart 12289)

Mariners are advised that scaffolding will be installed at the Francis Case Bridge, at mile 0.0, across Washington Channel in Washington, DC from 05 Dec 2015 until **15 April 2016**. Ref LNM 48/15

MD – Choptank River Route 331 Dover Road – Bridge Replacement (Chart 12268)

McLean Contracting Corporation will commence construction a new bridge just south of the existing Dover Road Route 331 Bridge until **November 2017**. Ref LNM 39/14

VA – James River/Newport News Shipbuilding Waterfront (Chart 12248)

Dredging – Dredge MOBRO 112 – **Until further notice**. Ref: LNM 14/14.

VA – James River – Newport News – Demolition and Pier Repairs Updated (Chart 12248)

Crofton Diving Corporation currently conducting demolition and repair operations to the James River Fishing Pier until **28 August, 2016**. Ref LNM 27/15, 37/15

VA – Hampton Roads – Bridge Improvements

Earley Marine Incorporation will begin construction improvements the bridge on Virginia Route 143 (Settler's Landing Road) over the Hampton River (City of Hampton – 0.4 miles west of Interstate I-64 within the next 30 days with a completion date of **April, 2016**. Ref LNM 02/16

VA – Chesapeake Bay – Norfolk Harbor – Dredging (Chart 12253)

Cottrell Contracting Corporation of Chesapeake, VA dredge LEXINGTON will be conducting dredging operations in various locations within the Norfolk Harbor Federal Channel from 12 December, 2015 through **01 June, 2016**. Ref LNM 49/15

VA – Lynnhaven River – Western Branch – Dredging Operations (Chart 12254)

Carolina Marine Structures Inc are currently conducting dredging operations within the Lynnhaven River – Western Branch and Old Donation Creek. Dredging operations are expected to be completed sometime in **April, 2016**. Ref LNM 04/15

VA – NORFOLK HARBOR – CRANEY ISLAND – DREDGING (Chart 12253)

The Dredge Essex along with support equipment will commence dredging operations at Virginia International Gateway (VIG) Portsmouth VA on or about April 10, 2016 continue until approximately **May 3, 2016**. A submerged pipeline will be placed from the dredging area to the Craney Island disposal area. Ref LNM 11/16.

VA – Chesapeake Bay – Elizabeth River – Midtown Tunnel Construction (Chart 12253)

SKW Constructors construction operations of new Midtown Tunnel, channel restrictions, temporary buoys established, barge traffic. **Until further notice**. Ref LNM 33/14, 33/15

VA - SOUTHERN CHESAPEAKE BAY (WILLOUGHBY BANK) – NOAA HYDROGRAPHIC SURVEY OPERATIONS Chart 1227, 12221

NOAA Ship THOMAS JEFFERSON (S222) will be conducting hydrographic survey operations in Virginia's Chesapeake Bay from Willoughby Bank north to Back River from April 4th through **May 13th**. Ref LNM 12/16

VA – Chesapeake Bay – Little Creek Inlet – Demolition And Repair Work (Chart 12254)

The U.S. Navy is currently conducting demolition and repair work to the ramp adjacent to and East of the entrance jetty to Joint Expeditionary Base Little Creek, VA., until **November 2016**. Ref LNM 52/15

VA – Norfolk Naval Station Piers – Dredging (Chart 12206)

Cottrell Contracting Corporation of Chesapeake, VA advises that the dredge ROCKBRIDGE will be conducting dredging operations at Norfolk Naval Station Norfolk, VA from piers 1 through 14 through **01 June, 2016**. Ref LNM 05/16

VA – Atlantic Intracoastal Waterway (AICW) – Norfolk Harbor to Albemarle Sound (Chart 12253)
Dominion Steel Bridge (Rt.17) Replacement; construction ongoing until **February, 2017**. Ref: LNM 07/13.

VA – Centerville Turnpike Bridge – Fender Repairs (Chart 12206)
Ryan Construction Co. Inc, will commence fender repairs to the Centerville Turnpike Bridge fendering system on 01 February through **26 May, 2016**. Ref LNM 05/16

VA/NC – Cape Henry To Pamlico Sound – Including Albemarle Sound - Bridge Construction (Chart 12205)
Mariners are advised that an engineering firm, on behalf of the North Carolina Department of Transportation (NCDOT), will be constructing a new bridge to replace the Herbert C. Bonner Bridge across the Oregon Inlet, at mile 0.9, Dare County, NC. Construction activities will begin on March 7, 2016 and are expected to finish on **August 30, 2019**. Ref LNM 09/16

NC – (AICW) - Pasquotank River - US 158 Bridge Construction (Chart 12206)
Mariners are advised that Archer Western Contractors, LLC will be extending bridge construction at US 158 Bridge in Elizabeth City, North Carolina to end approximately **July 1st, 2016**. Ref LNM 05/16

NC – CROATAN SOUND –DARE COUNTY - BRIDGE CONSTRUCTION
Mariners are advised to take caution and proceed slowly when approaching the construction site of the fender replacement on Bridge #9 across the Croatan Sound in Dare County on US64 Business, Old Mann's Harbor Bridge. May 2, 2016 through **August 15, 2016** during daylight hours. Ref LNM 11/16

NC - Perquimans River - Hertford - NC - Bridge Construction (Chart 12205)
Construction repairs to the fender system on the Route 17 Bridge crossing the Perquimans River in Hertford, NC. The repairs are to the fender system and anticipated to take place between January 4, 2016 and **August 30, 2016**. Ref LNM 49/15

NC – Dredging Operations In The Vicinity of The New River/Aicww – Sneads Ferry Nc- Dredging (Chart 11541)
Contractor, Marion & Cottrell, vessels MARION, SAXON, and BLACKHAWK will be conducting dredging operations in the vicinity of the New River and AICWW intersection to Cedar Bush Cut Channel until approximately **April 30th, 2016**. Ref LNM 08/16

NC – Atlantic Ocean – Carolina Beach - Dredging
Mariners are advised that Marinex Construction Dredge SAVANNAH will be conducting beach nourishment at Carolina Beach near the Ocean Blvd Public Beach access until **April 30, 2016**. Ref LNM 50/15

NC – Atlantic Ocean - Carolina Beach - Dredging - Updated (Chart 11534)
Mariners are advised that Marinex Construction is continuing beach nourishment at Carolina Beach and Kure Beach, NC until **April 30, 2016**. The Dredge SAVANNAH, assisted by the Tugs NA HOKU, SEGA and CAPTAIN RIO will be actively working in two borrow sites. Ref LNM 02/16

NC –New River – Dredging (Chart 11542)
Mariners are advised that the Cottrell Contracting Corporation dredge Marion will be conducting dredging operations in the New River Inlet/Channel to Jacksonville at New River Channel Day beacon 18 and working to New River Buoy 72B". Operations will also take place in the Atlantic Intercoastal Waterway from Bouge Sound - New River Day beacon 76 to Bouge Sound - New River Day beacon 70. The submerged pipeline will be located behind the dredge and will be present along the Green Side of the New River Inlet and run ashore on the northeastern corner of North Topsail Beach. The dredge will begin operations on or about March 10, 2016 and will be completed by **April 16, 2016**. Ref LNM 10/16

NC – CAROLINA BEACH INLET- DREDGING (Chart 11534)
The Dredge CHARLESTON will commence dredging operations in the Carolina Beach Inlet March 12 to **April 30, 2016**. The project includes dredging in Carolina Beach Inlet between the Atlantic Intracoastal Waterway and Carolina Beach Inlet Buoy 9 (LLNR 30305). A pipeline will be placed between the dredge and the southern shoreline of the inlet. The project will be conducted twenty – four (24) hours per day seven (7) days a week. The Dredge Operator will be standing by on channels 13 and 16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage. Ref LNM 11/16

NC – Kinder Morgan Pier – Construction (Chart 11537)
Precon Marine will commence construction on the Kinder Morgan pier, beginning on February 29th 2016. The project will continue until **approximately July 1st, 2016**. Ref LNM 09/16

SUMMARY OF D5 MARINE EVENTS/FIREWORKS DISPLAYS

FIREWORKS – DISPLAY PRECAUTIONS AND REGULATIONS

Fireworks barges and launch sites on land will have signs labeled FIREWORKS--DANGER--STAY AWAY to provide on scene notice that the safety zone will be enforced. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the Coast Guard Captain of the Port (COTP) or designated Coast Guard patrol personnel on scene. All persons and vessels shall comply with the instructions of the COTP or the designated on-scene-patrol personnel, and upon being hailed by siren, radio, flashing light or other means, the operator of a vessel shall proceed as directed. Other Federal, State and local agencies may assist these personnel in the enforcement of the safety zone.

MD – CHESAPEAKE BAY – COVE POINT TO THOMAS POINT – SAIL RACES

The Naval Academy Sailing Squadron (NASS) Regattas are scheduled to occur on the middle Chesapeake Bay, between the Wm. P. Lane, Jr. Memorial (US-50/301) Bridges and Thomas Point, MD, with four individual events scheduled from 9 a.m. to 5 p.m. on the following dates during 2016: April 16 (NASS Spring Race); September 17-18 (Shields Cup Regatta); October 22-23 (McMillan Cup Regatta); and **November 5-6** (Kennedy Cup Regatta). Each regatta consists of participating sailboats from 25 to 50 feet in length. The Race Committee can be contacted via marine band radio VHF-FM channels 16 and 77. More information is available at website: <http://nass.sailregattas.com/>. For any comments or questions contact Coast Guard Sector Baltimore, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Chart 12270

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTAS

The Annapolis Yacht Club's (AYC) annual sailing regattas are scheduled to occur in the Severn River and the Chesapeake Bay, near the mouth of the Severn River, between 10 a.m. and 4 p.m., with 21 individual events scheduled on the following dates in 2016: April 23 (*Spring One Design*), April 29-May 1 (*NOOD Regatta*); May 14 (*Spring Harbor Regatta*), May 21-22 (*U.S. Sailing Match Race Qualifier*); June 11 (*Annual Regatta and Annual Regatta Distance Race*), June 18-19 (*CRAB Cup*); July 7 (*Junior Annual Regatta*), July 16-17 (*Free State Team Race*), July 23 (*Summer One Design*); September 3-4 (*Annapolis Labor Day*), September 9-11 (*U.S. Women's Match Race Championship*), September 10 (*Fall Harbor*), September 13-15 (*Warrior Sailing Project*), September 24-25 (*Inter-Club Team Race*); October 1-2 (*Fall Series Weekend 1*), October 8 (*Fall Series Distance Race*), October 15-16 (*Fall Series Weekend 2*), October 22-23 (*Fall Eschells - Lippincott and Halloween Howl*), **October 29-30** (*J/105 & J/35 Fall Championships*). The AYC Race Committee can be contacted at racechair@annapolisyc.org. For any comments or questions, contact Coast Guard Sector Baltimore, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Charts 12270, 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA

Mariners are advised that an intercollegiate rowing competition is scheduled to occur on the Severn River on Saturday, April 16, 2016 from 6:30 a.m. to 10 a.m. The 2,000-meter rowing course is located from the entrance to College Creek, upriver to Severn River Light 2 (LLN-19945); an alternate course is located from Severn River Light 2 (LLN-19945), upriver to the entrance to Chase Creek. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of the Severn River from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at latitude 39°00'58" N, longitude 076°31'32" W thence to the north shoreline at latitude 39°01'11" N, longitude 076°31'10" W. The regulated area is bounded to the southeast by a line drawn from the Naval Academy Light at latitude 38°58'39.5" N, longitude 076°28'49" W thence easterly to Carr Point, MD at latitude 38°58'58" N, longitude 076°27'41" W. The regulated area will be enforced from 6 a.m. through 10:30 a.m. on **April 16**, 2016. The effect will be to restrict vessel traffic on certain waters of the Severn River. The Coast Guard Patrol Commander may forbid and control the movement of all vessels in the regulated area. Coast Guard vessels enforcing this regulated area can be contacted on marine band radio VHF-FM channel 16 or 22A. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. For any comments or questions, contact Coast Guard Sector Baltimore, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Charts 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA

Mariners are advised that an intercollegiate rowing competition is scheduled to occur on the Severn River on Saturday, April 23, 2016 from 6:30 a.m. to 9:30 a.m. The 2,000-meter rowing course is located from the entrance to College Creek, upriver to Severn River Light 2 (LLN-19945); an alternate course is located from Severn River Light 2 (LLN-19945), upriver to the entrance to Chase Creek. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of the Severn River from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at latitude 39°00'58" N, longitude 076°31'32" W thence to the north shoreline at latitude 39°01'11" N, longitude 076°31'10" W. The regulated area is bounded to the southeast by a line drawn from the Naval Academy Light at latitude 38°58'39.5" N, longitude 076°28'49" W thence easterly to Carr Point, MD at latitude 38°58'58" N, longitude 076°27'41" W. The regulated area will be enforced from 6 a.m. through 10 a.m. on **April 23**, 2016. The effect will be to restrict vessel traffic on certain waters of the Severn River. The Coast Guard Patrol Commander may forbid and control the movement of all vessels in the regulated area. Coast Guard vessels enforcing this regulated area can be contacted on marine band radio VHF-FM channel 16 or 22A. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. For any comments or questions, contact Coast Guard Sector Baltimore, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA

The U.S. Naval Academy will sponsor its annual Safety-at-Sea Seminar in the Severn River adjacent to the U. S. Naval Academy, between the Naval Academy (SR-450) Bridge and Triton Light (LLN-19780), on Saturday, **April 2, 2016**, from 11:30 a.m. to 1:30 p.m. The event includes on-water activities involving small boats and other vessels, a low-flying helicopter and pyrotechnics demonstrations. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of the Severn River, from shoreline to shoreline, bounded to the northwest by the Naval Academy (SR-450) Bridge and bounded to the southeast by a line drawn from the Naval Academy Light at latitude 38°58'39.5" N, longitude 076°28'49" W thence easterly to Carr Point, MD at latitude 38°58'58" N, longitude 076°27'41" W. The regulated area will be enforced from 11 a.m. to 1:30 p.m. on April 2, 2016. The effect will be to restrict vessel traffic on certain waters of the Severn River. The Coast Guard Patrol Commander may forbid and control the movement of all vessels in the regulated area. Coast Guard vessels enforcing this regulated area can be contacted on marine band radio VHF-FM channel 16 or 22A. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. Mariners are urged to schedule their transits on this waterway beyond the enforcement times. For any comments or questions, contact Coast Guard Sector Baltimore, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12282, 12283.

MD – CHESAPEAKE BAY – SEVERN RIVER – SAILING REGATTA SERIES

The Annapolis Yacht Club's 2015-2016 Frostbite Series sail races are scheduled to occur on the Severn River each Sunday afternoon from November 8, 2015 through December 13, 2015, on January 1, 2016, and each Sunday afternoon from January 28, 2016 through **March 13, 2016**, between approximately 1 p.m. and 4:30 p.m. Each race consists of up to 25 participants, with seven fleets starting at various times, and a maximum of 125 participating sailboats and auxiliary sailboats (18 to 49 feet in length). The races will occur in the Severn River, between the Severn River (US-50) Bridge and the mouth of the Severn River, with a start line in the vicinity of U.S. Naval Academy seawall. Interested mariners may contact the Special Events Committee boat on marine band radio channel 72 VHF-FM, if necessary. Charts 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER - ROWING COMPETITIONS

The Annual Intercollegiate Rowing Competitions are scheduled to occur on the Severn River at Annapolis, MD on Saturday, March 26, 2016 and **April 2, 2016**, from 6:30 a.m. to 9:30 a.m. both days. The 2,000-meter rowing course is located from Severn River Light 2 (LLNR 19945) downriver to the entrance to College Creek; an alternate course is located from Severn River Light 2A (LLNR 9950) downriver to Severn River Light 2 (LLNR 19945). Official patrol vessels can be contacted on marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Baltimore at (410) 576-2674 or (410) 576-2693. Charts 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER & COLLEGE CREEK – REGULATED AREA

Mariners are advised that the U. S. Naval Academy will host its Blue Angels Air Show over the Severn River at Annapolis, MD on Wednesday, May 25, 2016 from 2 p.m. to 4 p.m. High-speed, low-flying fixed-wing aircraft will operate between the Severn River (US-50) Bridge and Greenbury Point, MD. The event also includes a circle and arrival at 11 a.m. and a practice demonstration at 2 p.m. on Tuesday, **May 24, 2016**. As described in 33 CFR 100.501, a regulated area is established for all waters of the Severn River, from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at 39°00'38.02" N, 076°31'01.49" W, thence to the north shoreline at 39°00'52.7" N, 076°30'46.01" W, this line is approximately 1300 yards northwest of the Severn River (US-50/301) Bridge. The regulated area is bounded to the southeast by a line drawn from the Naval Academy Light at 38°58'53.26" N, 076°28'33.31" W, thence southeast to a point 1500 yards east of Chinks Point, MD at 38°57'41" N, 076°27'36" W, thence northeast to Greenbury Point at 38°58'27.66" N, 076°27'16.38" W. The effect will be to restrict vessel traffic on the Severn River and College Creek. The regulated area will be enforced both days, from 9:30 a.m. to 4 p.m. on May 24, 2016 and on May 25, 2016. The Coast Guard Patrol Commander may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. Spectators may contact the Patrol Commander to request permission to operate within the regulated area, but shall at all times remain outside the designated show box; if permission is granted, spectators must proceed at a safe speed and without loitering. Mariners are urged to schedule their transits on these waterways beyond the enforcement times on both days. A temporary access channel marked with red and green buoys will be established near Horn Point Light HP (LLNR 19745), to allow vessels to transit into and out of Annapolis Harbor during the event; vessels operating in this area will do so at their own discretion. At no time will spectators be permitted to obstruct both the temporary access channel and the federal navigation channel outside the regulated area. In addition, a "Commercial Vessel Spectator Zone" is located immediately adjacent to the temporary access channel, within a line connecting the following positions: 38°58'28" N, 076°28'11" W; thence to 38°58'35" N, 076°28'03" W; thence to 38°58'28" N, 076°27'50" W; thence to 38°58'23" N, 076°27'55" W; thence to the point of origin. Only commercial passenger vessels will be allowed within this designated on-water spectator area. Mariners should expect the presence of a single U.S. Navy Yard Patrol craft, used to mark the centerline of the air show flight box in the Severn River, anchored in approximate position 38°59'12" N, 076°28'48" W. Several orange floating markers along the southern boundary of the air show box will be used to indicate a buffer area established for USCG safety and enforcement patrol operations. The Coast Guard may be assisted in the patrol and enforcement of this area by federal, State and local agencies. For any comments or questions, contact Coast Guard Sector Baltimore at (410) 576-2674 or (410) 576-2693. During the events, the Coast Guard Station Annapolis Officer-of-the-Day can be contacted at (410) 267-8108. Charts 12282, 12283

DC - UPPER POTOMAC RIVER - WASHINGTON CHANNEL – FIREWORKS DISPLAY - SAFETY ZONE

The annual "National Cherry Blossom Festival" fireworks display is scheduled to occur in Washington Channel on Saturday, April 9, 2016, at 8:30 p.m. As described in the Table to 33 CFR Section 165.506, a safety zone is established upon the waters of the

Upper Potomac River, within a 500-yard radius of the fireworks barge in approximate position latitude 38° 52' 20" N, longitude 077° 01' 17" W, located within the Washington Channel in Washington, DC. The zone will be enforced from 7:30 p.m. to 9:30 p.m. on **April 9**, 2016. The effect will be to restrict vessel traffic in the Washington Channel. The fireworks barge within the regulated area will have a diamond-shaped, 4 feet by 4 feet sign with orange retro-reflective border affixed to the port and starboard sides of the barge labeled "FIREWORKS—DANGER—STAY AWAY" with black block letters on a white background to provide on scene notice that the safety zone will be enforced. The Captain of the Port Baltimore can be contacted by telephone at (410) 576-2693 or by marine band radio on VHF-FM Channel 16. Official patrol vessels can be contacted on marine band radio VHF-FM Channel 16. Comments or questions should be directed to Coast Guard Sector Baltimore, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
